

# INSTALLATION SHEET

## CRAWL SPACE

### PRODUCT: DOUBLE BUBBLE FOIL/FOIL INSULATION

#### **Benefits:**

- Quick, clean and easy to install
- Reduces heat loss and keeps floors warmer
- Unaffected by condensation and humidity
- Excellent vapor barrier and radon barrier

#### **Installation Method 1 – Between Floor Joists**

1. Using our pre-cut 16" wide Double Bubble Foil Insulation, staple the material between the floor joists being sure to leave a 2" to 4" air space below the sub-floor.
2. Seal the ends with 3" Foil Tape.

#### **Installation Method 2 – Under Floor Joists**

1. Staple the loose edge of a roll of Double Bubble Foil Insulation to the outer rim/floor joist.
2. Roll out the Double Bubble Foil Insulation across the underside of floor joists, stapling it every 4" to 6".
3. Seal the seams with 3" wide Foil Tape.
